

## PSHE and RHE

### Our learning values

Working Together	Curiosity	Making Connections	The Bigger Picture	Keeping Going
I like to work together with other people in school as well as the local community. This allows me to share my ideas and helps me to learn.	I just love asking questions to find out about things. I like to investigate, create and explore to find the answers.	I enjoy making connections with my learning. I like to see how everything fits together. I love linking learning from different areas together, it helps me to understand what I am doing.	I see the bigger picture. I plan ahead so I am clear about what I need to learn. I look back at what I've done so I know what to do next. It is important to me that I do my very best.	I keep on going. It doesn't matter how hard I find something. When things get tough I use my perseverance to stick at a task and try my best. By doing this I discover that learning becomes easier than I thought.
